CAREER OBJECTIVE

I began my career as a **Customer Support Executive**, where I developed strong communication, problem-solving, and user empathy skills. Over time, I discovered a passion for technology and transitioned into a role as a **Front-End Developer**.

Now, I am an aspiring front-end developer with a strong foundation in **HTML, CSS, and JavaScript**. I am eager to apply my skills in a dynamic team environment to create responsive and user-friendly web applications. I look forward to opportunities for career advancement that will allow me to grow while contributing effectively to my team's success.

WORK EXPERIENCE

Junior Software Engineer   12/2024 -Present

Oh! Meat

Junior Software Engineer
- Contributed to the development of the main dashboard & website by assisting in designing and implementing UI components using React.js.
- Collaborated with team members to integrate RESTful APIs, ensuring dynamic data rendering and improved user experience.
- Actively participated in code reviews and discussions to maintain clean, maintainable, and scalable front-end architecture.
- Worked with state management tools (e.g., React Context or Redux, if applicable) to manage and pass data across components.
